NOTES Terms: 50% with Purchase Order with balance due prior to shipping.

This configuration has eight (8) inputs that support both analog and SDI signals. TRANSITIONS include multiple wipe designs, and EFFECTS include Picture-In-Picture choices, several "double box" layouts, and Chroma Key. Record in MPEG-2 or H.264 (MP4), and stream directly using the included Flash Media Live Encoder. We offer our StreamSource ANYSCREEN service starting at \$149/mo for maximum visibility on most media devices, including Android, iOS, Roku and GoogleTV. Installation and training available: \$800/day plus travel expenses.
