DEVELOPMENT CONCEPT & CHARACTER

Attic storage is a proposed commercial and light industrial development submitted as a Planned Unit Development (PUD) pursuant to the provisions of the Broken Arrow Zoning Code. The site is approximately 10.15 acres located at the NEC of West Tucson Street and S. Aspen Ave. It is bounded on the South by W. Tucson Street, on the East by Warren Theatre Broken Arrow, on the North by Creek Turnpike and on the West by a drainage creek and Vacant Land.

The project consists of two development areas. Development Area A consists an area for commercial use, and encompasses approximately 2.98 acres of land. Development Area B consists of an area for light industrial use and encompasses approximately 7.18 acres of land. A public street will be constructed by the developer to serve as access to all lots within this PUD.

The PUD South boundary has 363.82 feet of street frontage along West Tucson Street. The average depth of Development Area A is 359.78 feet, and Development Area B is 259.40 feet. The PUD boundary legal description is included in this document.

In Development Area B, the proposed project consists of constructing a 2-story building including parking and drives for mini-storage use. Future 2-story office / warehouse building will also be constructed in this development area. The current zoning of the property is CH (Commercial Heavy). In the CH district a mini-storage use requires approval of a Specific Use Permit and is limited to only 20 percent of the lot area (Section 3.2.D.3d); whereas, mini-storage is a permitted use in the IL (Industrial Light) district. Thus the request for approval to rezone the 7.18-acre northern portion of the site to IL to accommodate mini-storage as a permitted use.

Development Area A is presently zoned CH and this zoning will remain unchanged. Development Area A will be developed by others in the future. The most likely use would be a retail business and/or restaurant.

A Conceptual Site Plan for the project is shown on Exhibit "A".

Site lighting will be provided in accordance with the requirements of the City of Broken Arrow.

LANDSCAPING AND SCREENING

The *Attic Storage* Landscaping Plan will be designed in accordance with the Broken Arrow Zoning Ordinance except as noted herein. Any landscape material that fails shall be replaced in accordance with Section 5.2 C.4 of the Zoning Ordinance.

The width of the internal landscaped areas for Development Area B shall be no less than 10 feet measured from the back of parking lot curb to the lot line.

The mini-storage facility shall be completely enclosed with a masonry perimeter fence/wall. The wall consists of metal panel screen, with stucco finish on exterior face. The interior face will be painted to match the building. An elevation for the fence/wall is shown in Exhibit A.

The width of the internal landscaped areas for Development Area A shall be no less than 10 feet measured from the parking lot back of curb to the lot line. The landscape buffer along West Tucson Street shall not be less than 10 feet in width.

At least one (1) tree shall be provided per 50 linear feet along West Tucson Street. A minimum of 10 feet wide landscape edge is required along West Tucson street frontage. All trees will be selected from the approved tree list contained in the Broken Arrow Zoning Code; trees required by code will be planted at a minimum size of 2" caliper. At least 50 percent of the required trees will be large trees as identified in the Zoning Ordinance. Shrubs required by code will be planted at a minimum 3-gallon container size. All landscape areas will be irrigated with an automatic irrigation system, and maintained per requirements of the Broken Arrow Zoning Ordinance.

All mechanical and HVAC equipment will be screened from public view as required by the zoning code.

Outdoor refuse collection receptacles will not be located within a required setback. Each refuse collection receptacle shall be screened from view on all sides by a durable sight-obscuring enclosure consisting of an opaque fence or wall of between six feet (6') and eight feet (8') in height. Where the access to the enclosure is visible from adjacent streets or residential properties, the access shall be screened with an opaque gate.
