Dear Mike,

The Military History Center is honored to be considered as a location for the Broken Arrow Vietnam memorial currently displayed in the City Park. We think that relocating the memorial to the Military History Center's location could contribute to the recognition of veterans and their service that the Military History Center strives to achieve. This memorial, dedicated to the Broken Arrow residents that were killed in action in Vietnam, would be placed in a location that is very visible and accessible to the public.

We look forward to receiving this monument as an important addition to our Veteran Memorial Plaza.

Sincerely,

BG Thomas Mancino, President
