Date: August 29, 2025

Address: 1905 N. 24th St. Broken Arrow, OK 74014

Please check mark an **X** on any of these statements that apply.

X 1. I am not bothered by the fence at 1908 N 24th Street and do not want it to be cut down.

X 2. The fence at 1908 N 24th Street is a significant improvement over the previous fence at that address. It looks like a nice sturdy fence.

Does not affect me.
3. I am OK with the fence at 1908 N 24th Street, but would like for it to have a face on County Line Road that covers the metal posts.

Does not affect me.
4. I would like the fence, at 1908 N 24th Street, to match both the fences on right and left side. Cut it down.

X 5. I have no opinion either way. It does not affect me.

That's crazy!

6. I understand the possibility of 150 square feet of fence and metal supporting posts may be cut down and removed along County Line Road and replacement fences will be on a slant so it will be level with fences on the right and left side.

I understand that if the above statement is required to happen, an additional 22 square feet of fence and supporting posts along the north wall of the interior fence, in the yard, will be removed to avoid visibility from County Line Road and match exterior fence.

You are welcome to make an additional comment.

Why pick on this one homeowner? She pay HOA fees. She should not bear the responsibility to change her fence which still leaves all the other fences in non compliance.

I would like to have an 8ft fence across the back as well. Their fence is nice and I feel a taller fence helps with road noise and smell.

My opinion is that the City of B.A. should be more concerned with the "quality" of the Entire Fence Line of the Bentree Fence Line than harassing the owner of 1908 N. 24th. who is the only owner in years
