**Subject:** Special Assesment at steeplechase farms

Hello Crickett Moore,

My name is Troy Kraus and I live in SteepleChase Farms, I received a 407.00 assessment 6 years after moving into our house and I have talked to some people at city hall, but they have refused to remove the assessment from the house we bought in 2011, I have seen several in the SteepleChase Farms forum talk about this being removed due to us not living here and it being disclosed, it was not on our disclosure papers from the title search, I was told by 1 person at city hall that they reviewed my case and I was going to have to pay it due to the fact that everybody else was made to pay this fee and said it was not fair to them, said I could fight it out with the council but I would lose.

I have now seen several of my neighbors on this forum have had the 407.00 assessment fee removed, so I believe this gentleman at the office was either misinformed or he intended on lying to force me to pay the 407.00, I have now received notice that this is going to my tax roll, I have tried to get this removed and the lady that lives here in Steeple Chase was trying to help me but said I would probably have to pay and was giving me to the end of October to come up with the money, I just don't find this fair since I was never served and never had a chance to go before the council to fight it.

Is there anything you can do to help with this? My name and address and a phone number will be at the bottom  
Thank you.

Troy Kraus
