KEY FEATURES & BENEFITS

EXCEPTIONAL PERFORMANCE	After years of expertise and leadership in material handling solutions, Cat® lift trucks engineered a game changing powertrain for exceptional performance in the toughest material handling conditions. The Perkins engine family is the industry's most powerful and respected industrial engine family in its class. The engines delivers outstanding performance while maintaining the highest standards of durability and reliability. With a proven track record for quality and dependability, the rugged PowerShift transmission delivers a remarkable performance optimizing engine power and response.
OPERATOR COMFORT	A forklift's productivity is not only measured by a strong powertrain, but also by its operator comfort and efficiency. This is why Cat® lift trucks designed an ergonomic operator compartment optimizing comfort, visibility and productivity for long and demanding shifts.
PRESENCE DETECTION SYSTEM	The Patented PDS system, standard on all Cat® lift trucks helps ensure that the operator is following the correct operating procedures. Once the operator leaves the seat and does not engage the park brake, the PDS will disengage the transmission and all hydraulic functions to the mast while activating an audible alarm and a flashing visual warning.
ENGINE PROTECTION SYSTEM	The EPS monitors the Engine Coolant Temperature, Transmission Oil Temperature and Engine Oil Pressure. The system issues a warning and cuts back on engine rpm when parameters go out of range. It also monitors the brake fluid level and warns when the level is too low. The EPS also issues periodic maintenance alerts by displaying them on the screen.
PREMIUM LED/LCD DISPLAY	The standard premium LED/LCD display is connected to the monitoring system alerting the operator if one of the systems is not in check. It includes a Speedometer, Hour Meter, Clock, Travel Direction, Low Fuel Indicator or Fuel Gage, Coolant Temperature, Battery Charging Status, Operator Passcode capability and other systems-related indicators & warnings.
