Dustin Weber
Network Systems Engineer
Information Systems
City of Broken Arrow, TX 74012

Dear Dustin,

In accordance with your request, by this letter it is affirmed that RUSHWORKS is both the exclusive manufacturer and Sole Source of its software/hardware solutions in the United States, including but not limited to the following:

- A-LIST™ BROADCAST Automation and Streaming System with integrated MultiZone™ bulletin board
- A-LIST EVENT RECORDER™
- DAYSHIFT™ MULTI-FUNCTION UTILITY - PLAY/RECORD/TIMESHIFT
- DIJIT™ File Encoder
- VDESK™ Integrated PTZ Production and Streaming System
- REMO™ Portable Integrated PTZ Production and Streaming System
- LOCKED ON™ Robotic Camera Tracking and Recording System
- CITYVIEW™ Automated PTZ Camera Tour System
- CTRL R™ Camera Control Software
- CTRL R PRODUCTION STUDIO™ for ATEM Switcher
- TalkingPoints™ Live Presentation Recording and Streaming
- ANYSCREEN™ Stream Hosting Subscription Service
- STREAMSOURCE™ Stream Engine

RUSHWORKS has no authorized US Dealers or Resellers for its individual solutions. Its sole source solutions are available for license/purchase by individuals, businesses, educational and government entities, houses of worship, and others at currently published prices.

RUSHWORKS as Sole Source:

- Sole Source core technology
- Proprietary, solution-specific hardware and software solutions development and manufacturing
- Specific Technical Expertise

RUSHWORKS offers a single (sole) source for all software/hardware components in its solutions. While there may be 3rd party elements incorporated into the solutions, the product branding/naming on most if not all of the components is that of RUSHWORKS. Because RUSHWORKS is the sole source for the solution, it is also the “single stop” for associated services, including engineering, installation and technical support. RUSHWORKS is wholly responsible for receiving, tracking and resolving problems associated with its software/hardware solutions, and maintains direct contact with customers’ systems via phone, email, and remote connectivity software.

RUSHWORKS as Hybrid Integrator/Manufacturer:

- Multi-Source
- Proprietary and Standards-based Interfaces
- Technical Expertise in Integration and Manufacturing

As a hybrid integrator/manufacturer, RUSHWORKS designs end-to-end systems and system upgrades that include sole source core technology integrated with multi-source vendor items, and provides sole source for services that include technical support, software upgrades, and Return Material Authorization (RMA) management.

Finally, RUSHWORKS is solely responsible for receiving, tracking and resolving problems associated with its core software/hardware solutions and any additional system components provided by RUSHWORKS, and solely responsible for maintaining direct contact with customers’ systems via phone, email, and remote connectivity software.

If you have any questions or need more information, please don't hesitate to contact me.

Sincerely,

Rush Beesley, President
