

AGREEMENT FOR AUTOMATIC AID IN FIRE PROTECTION AND FIRST RESPONSE AND MUTUAL AID IN FIRE PROTECTION AND FIRST RESPONSE

THIS AGREEMENT FOR AUTOMATIC AID IN FIRE PROTECTION AND FIRST RESPONSE AND MUTUAL AID IN FIRE PROTECTION AND FIRST RESPONSE (the "Agreement") is made and entered into this _____ day of _____, 2026_, by and between the OAK GROVE FIRE PROTECTION DISTRICT, Oklahoma, a rural fire department established by a vote of Wagoner County citizens, ("Oak Grove Fire Protection District") and the CITY OF BROKEN ARROW, Oklahoma, a municipal corporation ("Broken Arrow").

WHEREAS, within Oak Grove Fire Protection District Fire Department's response area there are various areas where a Broken Arrow Fire Department response unit may be closer than an Oak Grove Fire Protection District response unit and there may be various areas within Broken Arrow's response area where an Oak Grove Fire Protection District response unit may be closer than a Broken Arrow Fire Department response unit; and

WHEREAS, Oak Grove Fire Protection District and Broken Arrow desire that all citizens experiencing a fire and/or a Medical Emergency, within either Oak Grove Fire Protection District's or Broken Arrow Fire Department's response area, receive the shortest possible response times from the nearest response unit when possible; and

WHEREAS, Oak Grove Fire Protection District and Broken Arrow desire that all citizens receive a response with adequate personnel and in a timely manner to provide the best opportunity for a citizen's survivability, safety, and property conservation;

WHEREAS, Oak Grove Fire Protection District and Broken Arrow desire that first responders from both communities have sufficient and trained personnel on an emergency scene in a timely manner, and working together to provide the highest levels of safety for fellow responders; and

WHEREAS, Oak Grove Fire Protection District and Broken Arrow desire that all first responders from both communities have sufficient joint training, radio communications, technology, and common policies for incident command and emergency operations to provide for the safety and survivability of citizens and responders alike;

WHEREAS, it is understood, by both the Oak Grove Fire Protection District and Broken Arrow, that regardless of any changes, including any decreases, eliminations, or withdrawals from and/or any increases, additions, or incorporations, to the existing Oak Grove Fire Protection District or the Broken Arrow City limits jurisdictional boundaries, that the current ambulance transport territories and responsibilities for the respective jurisdictions and response areas will be unchanged by this agreement; and per the Oklahoma State Department of Health both agencies shall maintain their current ambulance responses territories and responsibilities.

WHEREAS, both Oak Grove Fire Protection District and Broken Arrow agree that the timely and accurate collection of 911 caller information and relaying that pertinent information to both agencies in a prompt and thorough manner without delay, is critically important to responders and citizens alike.

WHEREAS, both Oak Grove Fire Protection District and Broken Arrow shall collaboratively implement policies, procedures, and technologies necessary to direct all fire, rescue, and medical 911 emergency calls (non-law enforcement 911 calls) within the entire Oak Grove Fire Protection District Fire Department's response area to the Broken Arrow 911 Communications Center. The current PSAP will remain unchanged and shall not be altered by this agreement, but the applicable Oak Grove Fire Protection District calls received by the Wagoner

County PSAP shall be directed to Broken Arrow's 911 Communication Center for prioritization and dispatching Units as determined by each respective agency.

WHEREAS, both Oak Grove Fire Protection District and Broken Arrow agree that utilizing the current Broken Arrow Fire Department "MAIN" dispatch frequency for all department's initial dispatches provides the most timely, effective, and efficient means of communications. The Parties understand that significant emergency incidents involving multiple units and/or agencies may require participating units to be moved to a tactical (fireground) frequency for the duration of those incidents.

WHEREAS, both agencies understand, and are committed to, the significant time, coordination, communications, training, and technology improvements that will be necessary between multiple private sector and government agencies (e.g. Wagoner County, City of Tulsa, and Rogers County) to transition the Oak Grove Fire Protection District emergency dispatch and communications to the Broken Arrow radio and dispatching systems.

WHEREAS, the Oak Grove Fire Protection District shall bear all costs, including labor and materials, necessary to upgrade its computer software, hardware, radios, and alerting systems in order to achieve full integration with the Broken Arrow Computer Aided Dispatch (CAD) system. This includes providing Information Technology security, as determined by Broken Arrow, enabling constant GPS unit locations, station alerting, dashboard notifications, and two-way communication between the CAD and the District's Records Management System (RMS) vendor.

FURTHERMORE, Both Oak Grove Fire Protection District and Broken Arrow will continue to jointly strive to identify technologies, practices, and opportunities to reduce delays and response times in delivering all hazards emergency response in the affected areas.

NOW THEREFORE, the parties hereto agree as follows:

1. **Duration of Agreement:** This Agreement shall be effective as of the date it is executed by both the Board Chairman of the Oak Grove Fire Protection District and the Mayor of the City of Broken Arrow and shall remain in full force and effect for an indefinite period until terminated by either party. Either party may terminate this Agreement by giving ninety (90) days prior written notice to the other party at the address shown below, unless a party otherwise designates in writing. Notice shall be deemed effective when received.

Oak Grove Fire Protection District
Attn. Fire Chief
395 South 273rd East Ave.
Catoosa, OK 74105

City of Broken Arrow
Attn. Fire Chief
220 S. First Street
Broken Arrow, OK 74012

2. **Services provided by Broken Arrow:**

AUTOMATIC AID RESPONSE: When a structure fire incident or a Priority 1 medical emergency occurs at a location that is 1) within the Oak Grove Fire Protection District's response area but 2) the Broken Arrow Fire Department has a closer available unit, the Broken Arrow Fire Department will provide a response with the closest fire apparatus, if available. Dispatch of the designated Broken Arrow Fire unit should occur without delay and/or simultaneously with the dispatch of an Oak Grove Fire Protection District assignment for the incident. Furthermore, if a working fire is confirmed Broken Arrow should send at least two (2) suppression units and an ambulance, if available.

On all divided highways, such as the Creek and Muskogee Turnpike, Broken Arrow should dispatch a response unit, if available, to ensure a converging approach is made on all emergency calls.

MUTUAL AID RESPONSE: Upon request to an Authorized Representative of Broken Arrow by an Authorized Representative of Oak Grove Fire Protection District, equipment and personnel of Broken Arrow Fire Department, if available, will be dispatched to a fire protection or a first response incident in the Oak Grove Fire Protection District response area. For purposes of this Agreement, "Authorized Representative" means a person authorized by his or her respective Fire Chief to represent the fire department.

DISPATCH SERVICES: Broken Arrow shall collaboratively implement policies, procedures, and technologies necessary to direct all fire, rescue, and medical 911 emergency calls (non-law enforcement 911 calls) within the entire Oak Grove Fire Protection District Fire Department's response area to the Broken Arrow 911 Communications Center.

The Oak Grove Fire Protection District 911 emergency calls (non-law enforcement) received by either the Broken Arrow PSAP or the Wagoner County PSAP shall be directed to Broken Arrow's Communication Center for Emergency Medical Dispatching (EMD) prioritization and dispatching Units as determined by Oak Grove Fire Protection District and/or the Broken Arrow Fire Department, and/or transfer the medical transport call to the appropriate dispatching agency for the respective ambulance transport territory, as applicable.

The City of Broken Arrow agrees to utilize the current Broken Arrow Fire Department "MAIN" dispatch frequency for all departments' initial dispatches to provide the most timely, effective, and efficient means of communications. For significant emergency incidents involving multiple units and/or agencies, responding units should be moved to a tactical frequency (fireground) for the duration of those incidents. In the event that an incident, and its responding units, are moved to one or more tactical frequencies, the Broken Arrow's Communication Center shall actively monitor those frequencies for incident specific communications with the Communications Center.

The City of Broken Arrow shall implement and support the necessary policies, procedures, and technology infrastructure to allow the Oak Grove Fire Protection District to fully integrate with the Broken Arrow CAD system, including IT security, real-time unit GPS locations, station alerting, dashboard notifications, and CAD-to-RMS vendor communication, at the expense of the Oak Grove Fire Protection District.

While the Broken Arrow Public Safety Communications Center agrees to provide dispatch services for emergency and non-emergency calls for service in the Oak Grove response area, and dispatch mutual aid request for Oak Grove outside their response area, these services will not be extended to a third party agency without Broken Arrow's consent and a separate agreement with that agency.

3. Services provided by Oak Grove Fire Protection District:

AUTOMATIC AID RESPONSE: When a structure fire incident or a Priority 1 medical emergency occurs at a location that is 1) within the Broken Arrow Fire Department's response area, but 2) the Oak Grove Fire Protection District has a closer available unit, the Oak Grove Fire Protection District Fire Department will provide a response with the closest fire apparatus (first response only and not intended to substitute for an ambulance transport), if available. Dispatch of the designated Oak Grove Fire Protection District unit should occur without delay and/or simultaneously with the dispatch of a Broken Arrow Fire Department assignment for the incident. The on-scene Incident Commander may request additional resources from the Oak Grove Fire Protection District as described below under mutual aid.

On all structure fires east of 193rd East Avenue (County Line) between 41st and 101st (New Orleans), if available, Oak Grove shall respond a Suppression apparatus. If there is no hydrant available near the dispatched address Oak Grove shall respond a water tender apparatus with sufficient personnel to provide water shuttle operations.

On all grass fires east of 193rd East Avenue (County Line) between E 41st and 101st (New Orleans), if available, Oak Grove shall respond a brush truck apparatus.

On all divided highways, such as the Creek and Muskogee Turnpike, the Oak Grove Fire Protection District should dispatch a response unit, if available, to ensure a converging approach is made on all emergency calls.

MUTUAL AID RESPONSE: Upon request to an Authorized Representative of Oak Grove Fire Protection District by an Authorized Representative of Broken Arrow, one or more units of equipment and personnel of the Oak Grove Fire Protection District Fire Department, if available, shall be dispatched to the location of a fire protection or first response incident in the City of Broken Arrow or the Broken Arrow Fire Department's response area.

DISPATCH SERVICES: The Oak Grove Fire Protection District shall collaboratively implement policies, procedures, and technologies necessary to direct all fire, rescue, and medical 911 emergency calls (non-law enforcement 911 calls) within the entire Oak Grove Fire Protection District Fire Department's response area to the Broken Arrow 911 Communications Center.

The Oak Grove Fire Protection District shall bear all costs, including labor and materials, necessary to upgrade its computer software, hardware, radios, real-time unit GPS locations, and alerting systems in order to achieve full integration with the Broken Arrow Computer Aided Dispatch (CAD) system. This includes purchasing all network and system hardware as specified, and purchasing Information Technology security services, as determined by Broken Arrow, enabling station alerting, dashboard notifications, and two-way communication between the CAD and the District's Records Management System (RMS) vendor.

No later than September 1, 2026, the Oak Grove Fire Protection District shall purchase, install, and implement the necessary software (Field Ops) hardware and operational processes and procedures to seamlessly integrate into the Broken Arrow 911 Communications Center CAD system to provide for real-time specific unit status updates and to provide GPS locations of those units for the purposes of closest unit dispatching.

Upon this effective date, the Oak Grove Fire Protection District understands and agrees that units dispatched will only be those logged into the FieldOps platform and who are closest to the call for service. The City of Broken Arrow Communications Center will dispatch all OGFD and BAFD units in a similar fashion based on staffed units identified in the CAD and based on the unit's proximity to the emergency call for service.

However, in the event that all OGFD staffed units identified in the CAD have already been dispatched to previous call(s), the Oak Grove Fire Protection District shall continue to be notified of all emergency calls within its jurisdiction, including subsequent or overlapping calls for service, by radio, CAD notification, and station alerting, regardless of whether an Oak Grove unit is currently shown as logged in, staffed, or available in the CAD or FieldOps platform.

4. **Five-mile radius:** Neither party is required to dispatch equipment or personnel to a call for service located more than five miles from its closest Fire Station.

5. **Expenses:** Each party shall bear its own costs for services provided under this Agreement, including any damage or injury to its equipment or personnel. Both parties agree to honor the fire and/or EMS subscription services of the other jurisdiction, including subscriptions held by citizens paying property taxes to the Oak Grove Fire Protection District. Each party may waive out-of-pocket expenses for the other jurisdiction's subscription members but retains the right to bill insurance companies for services rendered. For example, Broken Arrow's

Out of City LifeRide EMS subscription program will be honored by Oak Grove Fire Protection District, and citizens within the Oak Grove Fire Protection District will not be invoiced for fire protection services provided by Broken Arrow. However, Broken Arrow may continue to invoice all citizens, regardless of jurisdictional boundaries, for EMS transport services.

Residents outside the corporate city limits of Broken Arrow or the Oak Grove Fire Protection District (unincorporated areas) who do not participate in either party's fire and EMS subscription services may be billed for services in accordance with each party's respective ordinances or policies.

Recognizing that Broken Arrow incurs ongoing costs for dispatch and communication services provided to the Oak Grove Fire Protection District, the Oak Grove Fire Protection District agrees to pay Broken Arrow a flat fee of twelve-thousand-five-hundred dollars (\$12,500) per year for dispatch and technology services described herein. Full payment shall be made by Oak Grove Fire Protection District to the City of Broken Arrow annually by February 1st.

After June 30, 2026, the parties shall reevaluate the fee annually with increases capped at \$2,500 per year not to exceed two increases in a 5-year period unless accompanied by documented costs related to newly implemented technology that directly benefits both fire protection districts. OGFD should be aware that the cost of data storage associated with the recordings for OGFD radio transmissions and associated telecommunications recordings will be evaluated by the City of Broken Arrow in and considered in next year's renewal.

6. **No agency:** It is expressly understood and agreed that each party shall be and remain independent. No agency relationship exists between the parties. Each party shall be solely responsible for the conduct of its respective personnel and equipment. Each party agrees to hold the other free and harmless from liability that may be incurred by reason of the reasonable conduct of each respective party's equipment and personnel.

7. **Waiver:** Except as otherwise provided herein, each party waives all claims against the other for compensation for any loss damage, personal injury, or death occurring as a consequence of the performance of this Agreement.

8. **Governing law and venue:** This Agreement shall be governed by the laws of the State of Oklahoma and any lawsuit related to this Agreement shall be filed in Wagoner County, Oklahoma. Neither party hereto waives any defenses or rights available pursuant to the Government Tort Claims Act, 51 Oklahoma Statutes, Sections 151 et seq., common law, statutes, or constitutions of the United States or the State of Oklahoma.

9. **Entire agreement:** This Agreement constitutes the entire agreement of the parties and supersedes any and all prior agreements, oral or otherwise, relating to the subject matter of the Agreement. This Agreement may only be modified or amended in writing and signed by both parties.

IN WITNESS WHEREOF, this Agreement has been executed in multiple copies on the dates set forth below.
