She noted City Council Members could contact her outside of the meeting to make recommendations. She reported the first part of the 2023 Legislative Agenda was Infrastructure. She asked if this needed to be changed, updated, or omitted. She asked if Support of the Broadband Initiatives was ongoing or finished. She stated under Public Safety, the public safety issues in the 2023 Legislative Agenda would remain, and new ones would be added after speaking with the Police Department. She stated under Opposition to Government Regulatory Overreach, anything COVID related would be removed. She stated under Local and Domestic Energy the first sentence would be updated to Fiscal 2023. She noted she needed to check into the 3C’s initiative to see if this was something the City was still doing. She stated under Supply Chain Bottlenecks, unemployment was low and stable according to the Department of Labor, so the City would update this section. She stated under Historic Levels of Inflation, the percentage needed to be updated.

B. 24-287 Consideration, discussion, and possible approval of and authorization to execute a Professional Consultant Agreement with Jacobs Engineering Group Inc. for the Future Bond Program Planning Project and approve Budget Amendment No. 20

Special Projects Division Manager Charlie Bright reported on August 28, 2018, the citizens of Broken Arrow approved a General Obligations (GO) Bond of \$210 million dollars. He stated at the time it was anticipated the bond would be issued over a 10-year period. He explained Broken Arrow was currently in year 6 of the 2018 GO Bond and due to the City's net assessed value increasing higher than projections, the City now anticipated completing the 2018 GO Bond in 2026. He stated with that in mind, City Staff was starting to prepare for a new General Obligations Bond vote to take place in the Spring of 2026. He stated it was anticipated this bond would be the largest the City of Broken Arrow ever had at an estimated \$300 plus million dollars. He stated to prepare for the 2026 GO Bond, City Staff solicited proposals from consultants to help with Bond planning and cost estimates. He indicated the selection committee interviewed three potential consultants and made a unanimous decision to recommend Jacobs Engineering Group, Inc. as the final consultant to negotiate a contract with. He stated City Staff negotiated an agreement with Jacobs Engineering Group Inc. to assist with Bond Program Planning for \$449,317 dollars and was to be billed on an Hourly, Not to Exceed basis. He thanked City Manager Spurgeon for having the forethought to begin this process early.

Council Member Parks asked if this agreement included engineering on the projects, or just designing the bond issue.

Mr. Bright stated the scope outlined with Jacobs was to start with a very long list of projects suggested by the public, directors, community partners, etc.; there would be a very high level programming/cost estimating for this list of projects. He stated he assumed the list would total almost \$1 billion dollars as it was basically a wish list. He explained after this was done, he would meet with City Manager Spurgeon and team and the City Council and cut out a significant portion of projects and get the list down to around \$400 million dollars or \$500 million dollars. He indicated from there each project would be programmed further with more accurate cost estimates and then the tough decisions of what projects to keep and cut would be made.

Council Member Justin Green thanked City Manager Spurgeon for his forward thinking on this project. He thanked and commended the City Manager and City Staff.

City Manager Spurgeon asked why Jacobs was chosen for this project.

Mr. Bright responded the scope of this bond was going to be significant, heavy in transportation, quality of life, public facilities, public safety, etc., and Jacobs had a lot of employees with a lot of experience in a lot of different areas. He explained with some of the other companies, a group of firms would have had to be contracted with each firm specializing in a certain department, but with Jacobs, there would only be one project manager, managing the experienced team in Jacobs for the whole project. He stated beyond this, Jacobs had the best leads out of all the teams.
