

## PROJECT REPORT

DATE:	04/11/2024
NAME	Keith Koessel
ADDRESS / LOCATION	2417 W Fort Worth St
WATERSHED	Haikey
ESTIMATE	\$0.00
CASE NO.	24-003

### DESCRIPTION

2417 W Fort Worth St is located in the Country Aire II subdivision, platted in 1976. A wood retaining wall at 2417 W Fort Worth St was privately several years ago. The retaining wall is in disrepair and shows sign of needed maintenance. The homeowner requested the city help with repairs. The retaining wall is in the floodway along Haikey Creek. City staff investigated the issue on February 26, 2024, and found that the retaining wall was on private property. Staff recommended to the applicant that he apply to the DAC while staff investigated further. During the investigation, staff found a sanitary sewer line running next to the property. The retaining wall is in between the sanitary sewer and the creek. The sewer line is 6 ft below grade and is not affected by the creek or the retaining wall. The requested mitigation would be to construct a new retaining wall that would be around \$150,000 plus \$50,000 in design fees, or grading and riprap would be approximately \$100,000. Both options would require removal of the trees and the applicant's fence. The retaining wall mitigation does not serve a public benefit and only serves to support the backyard of the applicant.

### BENEFIT

Repairing/mitigating the retaining wall does not have a public benefit to the City of Broken Arrow.

### RECOMMENDATION

Reject the request to expend public funds to repair a privately owned retaining wall at 2417 W Fort Worth St.
