Re: Commitment Letter

Dear Mr. David Weil,

It has been a pleasure to work with you over the past several months to explore a partnership in bringing the PulsePoint Application to the Broken Arrow community. PulsePoint was developed to help save the lives of people who experience sudden cardiac arrest, through improved bystander cardiopulmonary resuscitation. With close to 1,500 coordinated locations with emergency dispatch and tens of thousands of citizens linked to PulsePoint, the program is saving lives daily.

This letter is to affirm the partnership of the City of Broken Arrow (City) Fire Department and Saint Francis Health System to implement PulsePoint in Broken Arrow. This letter confirms that Saint Francis Health System agrees to provide up to \$10,000 to assist in funding the initial implementation of the PulsePoint Response Application for the first year's annual licensing fees. Based on the anticipated success of the program and mutual agreement, we will look forward to continuing this collaboration.

In honor of your support, the Saint Francis South logo of your choice will be included alongside the City and Fire Department logos in all marketing materials, including the mobile application.

We look forward to working with you to finalize the implementation plans with the preliminary goal of a community kick-off event in October of 2017. We invite you to assign a Saint Francis South representative as a public information officer to our implementation team.

Please sign, date and return this letter of commitment to 1101 N 6th St, Broken Arrow, OK 74012. If you have any questions or requests, please do not hesitate to ask.

Sincerely,

Jeremy K. Moore
Fire Chief

Saint Francis Health System
