AXON TASER

AXON 911

Slash dispatch response times by up to 90%:
From over 2 minutes down to just 5–15 seconds.

Offload up to 33% of call volume:
Utilize AI to handle routine non-emergency calls.

Reduce wait times to zero:
without adding a single headcount.

Instantly translate over 30 languages:
Completely eliminate the dangerous delay
of waiting for a human interpreter.

Axon 911 handles over **80 million** across **1,000+** emergency call centers.

DRONE AS FIRST RESPONDER

FASTER RESPONSE. SMARTER OUTCOMES. SAFER COMMUNITIES.

Beat patrol cars 75% of the time.

Drones launch in 20 seconds.
On scene in under 90.

Clear 41% of calls without an officer.

Miami Beach proved it.
Plus 115 arrests because
a drone got there first.

30% drop in overall crime.

San Francisco, down 500 officers,
used DFR to cut auto theft 42%.

Force multiplier for your agency.

Extend coverage, improve outcomes,
and keep communities safer—
all without adding headcount.

600+ AGENCIES

DEPLOYING AXON DRONE AS FIRST RESPONDER.

DEDRONE

AIRSPACE COMMAND & CONTROL

Instantly locates drones and pilots.

Detects unauthorized drones and automatically drops a map pin of the pilot's location for ground teams.

Multi-Sensor Fusion

Combines advanced RF, radar and camera sensors for maximum accuracy.

Real-Time Detection

Detects, tracks, and classifies drones in real time, day or night, in any weather.

Seamless Integration

Integrates with existing security, command centers, and counter-UAS effectors.

BATTLE-TESTED DEFENSE. Protects 500+ customers in 30 countries, using war-proven sensors to secure critical infrastructure.

FUSUS

COMMUNITY CAMERAS. CONNECTED. PROTECTED.

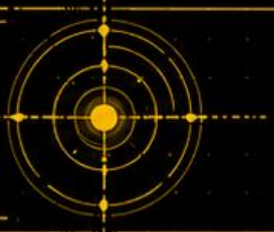

Share feeds in one click.
Private camera owners push a single button to share live footage with police. Feeds flow straight into the local real-time crime center.

Integrate any system.
No rip and replace. Plug in a Fusus core. Unify cameras from thousands of locations into one global security operations center.

Total privacy control.
The camera owner controls the data. When, where, and who sees the footage. Nothing shared without explicit approval.

DAMAGE DETECTED

Search any vehicle attribute.

Turn any connected camera into an intelligent sensor to locate vehicles by their make, model, color, or specific damage, rather than relying solely on a license plate.

Control your own data.

You retain 100% ownership over your system and footage, ensuring your data is never forced into massive default sharing pools without your explicit consent.

Deploy superior, lower-cost hardware.

Outpost and Lightpost cameras combine live video and automatic license plate recognition into one unit, delivering double the capability for less cost.

Integrate existing camera networks.

Easily bridge third-party cameras into your central intelligence system to drastically expand your coverage without having to buy new equipment.

30 MILLION

LICENSE PLATE READS
EVERY SINGLE DAY

FLEET 3

3-lane coverage with ANPR in every vehicle

Dual-View Camera captures clear evidence and 4K ANPR across up to 3 lanes of traffic.

Real-time awareness, smarter decisions

Livestream video, location updates, and alerts keep commanders informed in real time.

Built for security and reliability

Secure storage and wireless upload even without an MDC connection.

Unified evidence, clearer outcomes

Multi-cam playback with in-car and body-worn video automatically linked in Axon Evidence.

Across the U.S. and Canada, Fleet 3 ALPR drove **8.1B+** reads, **20K+** felony arrests, and **50K** recoveries in one year.

AXON BODY 4

AI assistance on your vest

Axon Assistant delivers real-time answers and translation—right from the camera.

Real-time visibility when it matters

Livestream, share locations, receive alerts, and communicate in both directions.

Sharper video, longer battery

160° FOV, upgraded 5 MP sensor, 13+ hour battery, and 128 GB storage.

Connected to the Axon ecosystem

Seamlessly integrates with Axon Fusus, Signal, Fleet 3, Video Recall, and more.

Trusted by over **17,000** agencies in **130+** countries to keep communities safe.

TASER 10™

INCREASED COMPLIANCE

UK data shows 85% of taser incidents resolve without firing due to the mere presence of the device.

INCREASED SAFETY

When use is necessary, peer-reviewed evidence from Europe and the US shows both officer and civilian injuries are reduced by 50% to 87%.

14 METER RANGE

More than three times the effective range of previous systems.

10 SHOTS

Up from 2 shots to 10, a five-fold increase in life-saving capacity.

18k+ LE agencies across 80+ countries worldwide use **TASER** devices.

VR TRAINING

INCREASED TASER® PROFICIENCY

+20%

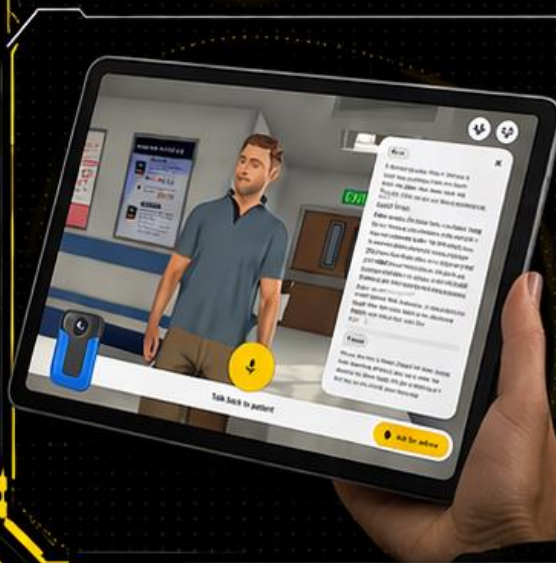

Officers trained with VR increased their Taser proficiency by 20%.

INCREASED FIELD PREPAREDNESS

+81%

After VR training, officers reported an 81% increase in their field preparedness.

METACOACH™

Axon MetaCoach is an AI-powered training platform designed to modernize how organizations learn, practice, and retain critical communication and de-escalation skills.

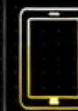

AI-POWERED

Realistic conversations with instant, objective feedback.

MEASURABLE

Actionable insights to track progress and skill growth.

DELIVERED VIA TABLET

Accessible training anytime, anywhere for your team.

Axon VR develops **better decisions, safer outcomes, and stronger communities.**

AXON SECURE CLOUD

One secure cloud. Every workflow.
Powering the entire justice ecosystem
from *capture* to *courtroom*.

AXON EVIDENCE

The foundational digital evidence management system.

AXON RECORDS

The "central nervous system" and RMS for law enforcement.

AXON JUSTICE

Purpose-built for prosecutors, defenders, and legal teams.

FUSUS

Cloud-based Real-Time Crime Center (RTCC).

AI SERVICES

AI-powered tools that turn evidence into actionable intelligence.

THE AXON APP

SECURE AI CHAT BOT

GDPR compliant, secure AI chat bot that helps you analyze incidents, search for insights, draft reports, summarize evidence, and get answers instantly and securely.

COMPLETE WORKFLOWS IN THE FIELD

Manage evidence and complete reports right from your device so you spend less time behind a desk.

ACCESS INFORMATION ON-SCENE

View digital evidence and video footage on-scene to make faster, better informed decisions.

GATHER EVIDENCE FROM WITNESSES

Collect digital evidence from witnesses via Community Request using SMS or email to preserve evidence and maintain chain of custody.

All the power of Axon, in the palm of your hand. **More access. Less wait. Better outcomes.**

INCIDENT SUMMARY

On May 15, 2024, at approximately 02:17 hours, officers were dispatched to 1234 Main St in response to a reported disturbance.

Upon arrival, officers observed two subjects engaged in a verbal altercation. Officers made contact and attempted to de-escalate the situation.

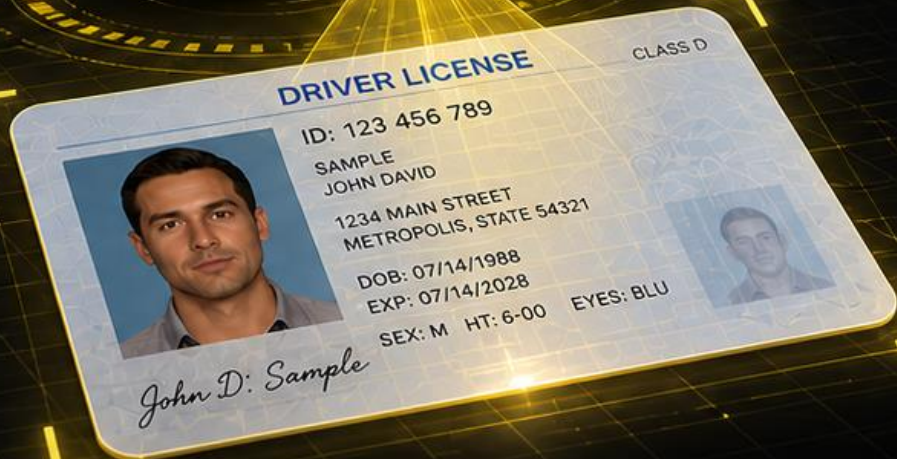

During the interaction, one subject produced a knife and raised it in the direction of officers.

Officers gave verbal commands for the subject to drop the knife. The subject refused to comply and continued to advance toward officers.

Officers deployed standard control techniques, safely disarmed the subject, and took the subject into custody without further incident.

No injuries were reported to officers or subjects. The scene was secured, and the investigation is ongoing.
