

Rob joins Integrated Business Technologies as our Director of Sales. With a proven sales track and a financial planning manager background, Rob is a leader with a unique hands-on experience in customer evaluation and company performance. Over the last 15 years, Rob has a strong record of success in developing sales and operations teams.

Rob brings outstanding leadership and business management skills with powerful communication and interpersonal abilities. He has substantial Customer Profitability experience as well as exceptional knowledge of processes and systems to support and ensure all operational metrics are met and exceeded. Rob has a comprehensive background surrounding sales and budgetary activities for large companies with extensive expertise managing multiple large, complex, multi-application and multi-system initiatives.

Rob is extensively involved in many organizations; holding memberships and board roles in many chambers, committees and boards within the community.
