DELIVERY - Pricing includes delivery to the jobsite, assuming FULL TRUCK LOADS. If we are asked to do partial shipments, additional freight will be applied.

LEAD TIME - We can typically start production 2-3 weeks after we receive approved submittals. Our submittals typically take 5-7 days to turn around. Lead times can fluctuate however, sometimes allowing us to produce more quickly, other times running longer.

RETURNS - Only stock items (4' blank risers, flat tops, cones, pipe) will be accepted for returns, assuming they are in re-sellable condition. Freight and a 30% re-stock fee will be applied to all returns.

This estimate, including its prices in the estimate, is expressly made in reliance on the terms and conditions of the Nance Precast Concrete Products Purchase Agreement which is incorporated by reference herein as if it were set forth in its entirety. Acceptance of any order will be expressly conditioned upon the Purchaser agreeing to the terms and conditions of the Purchase Agreement. Copies of the Purchase Agreement are available on the Nance Precast Concrete Products website at www.npcp.net, or can be provided upon request. Nance Precast Concrete Products reserves the right to reject any order and/or amend this estimate, including pricing, contained herein if terms and conditions different from the Purchase Agreement are required of and accepted by Nance Precast Concrete Products subsequent to the effective date of this estimate.
