We, the undersigned owners of property within Angus Acres oppose the requested zoning change because there are possible complications with the Editions Restrictive Covenants & Ordinances. These restrictions need to be carefully examined before taking decisive action.

In addition, the children who ride school buses have to walk considerable distances on the streets to catch the bus since buses no longer stop at each residence where current school children reside. This change in zoning could cause more endangerment to these children.

Also this is one residential neighborhood (Angus Acres & Angus Acres I) with multiple family/children dwellings, and senior citizen dwellings and we do not wish to be burdened with the increased traffic or more hazardous driving/walking conditions that would result if any part of Angus Acres were zoned and/or developed commercial.
