Let's begin with a simple question...

Is any compromise possible?

POWERPOINT PRESENTED BY VIRGIL VANDUSEN TO PLANNING COMMISSION IN THEIR MEETING OF APRIL 27, 2017. PAGE 2 OF 34

In the spirit of cooperation...

Let it be known that:

- We are not opposed to a housing addition known as Aspen Crossing.
- We respectfully request that you consider our concerns.
- As future neighbors of Aspen Crossing, courtesy works both ways in a development.

► Traffic

- Allowing this development to proceed as proposed only complicates the traffic situation.
- More accidents will happen.
- First responders <u>will</u> be impeded in performing their duties expeditiously.

How does Capital Homes decide on price range of neighborhoods they plan to develop?

Capital Homes' website looks as though current available new construction homes vary from approximately \$160,000 - \$300,000.

Why choose BA, and more specifically, this location, for your lowest price range of homes when data shows that this is the most widely available for purchase in this price point within BA city limits?

While the developers claim that this PUD... 18

Provides for a "less intense" residential component than had been previously approved...

The truth is that the surrounding housing demographics of the area have changed since previous approvals.

Fencing

Tract 3, the commercial portion of the Aspen Creek PUD, is proposed as a 5.00 acre tract located on the northeast corner of South Aspen Avenue and West Jasper Street. Tract 3 is proposed to be developed as essentially a traditional Commercial General (CG) type of development.

Open space will be provided for the project on the east side of Tract 1 and the north side of Tract 2 in the floodplain area. Stormwater detention facilities, trails and parks are some of the opportunites available in the open space area.

Standard rights of way will be dedicated along West Jasper Street and South Aspen Avenue, with a 10 foot fence and landscape easement also being provided. The development is proposing a 10' wood fence. (p.6, PUD No. 260)

19

New construction expected standard is brick and/or stone fences adjacent to major roads.

Surrounding Neighborhoods

Land Use Plan

POWERPOINT PRESENTED BY VIRGIL VANDUSEN TO PLANNING COMMISSION IN THEIR MEETING OF APRIL 27, 2017. PAGE 28 OF 34

Our vision proposes for Tract 1:

- Larger lots (minimum of 10,000 sf.)
- Larger minimum square footage of homes (minimum of 2,200), so as to less likely ever become a rental
- Appropriate adjustment in setbacks
- A 25% increase in minimum lot frontage to keep the "rural atmosphere" of the neighborhood
- 80% exterior brick or rock on homes

POWERPOINT PRESENTED BY VIRGIL VANDUSEN TO PLANNING COMMISSION IN THEIR MEETING OF APRIL 27, 2017. PAGE 29 OF 34

Our vision proposes for Tract 2:

Provide that this is a completely gated area; which arguably, may attract even more older adults – which Capital Home says this is the type of owner they are *looking* to attract.

> POWERPOINT PRESENTED BY VIRGIL VANDUSEN TO PLANNING COMMISSION IN THEIR MEETING OF APRIL 27, 2017. PAGE 30 OF 34

Our vision proposes for Tract 3:

This tract has never been approved for commercial use.

We would request that this tract remain residential.

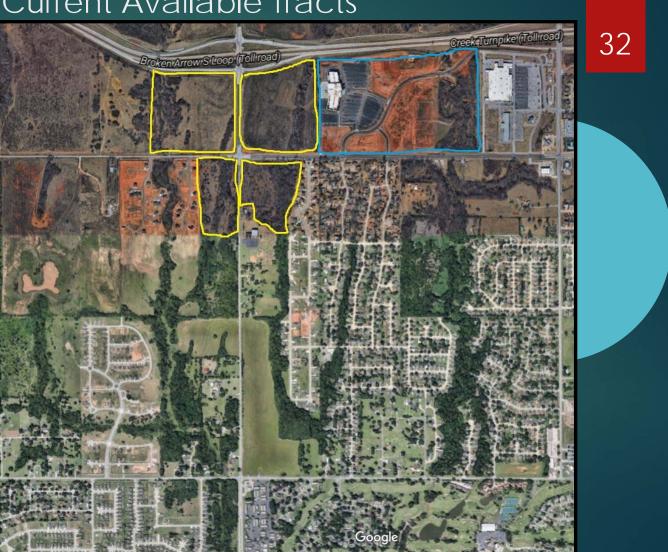

Plenty of commercial tracts are available & will be soon developed across from the Warren theater less than 1 mile away from proposed development. There is no need for additional commercial tracts in this area.

In Conclusion...

Our goal is to be good neighbors.
 Our common goal should be one of providing neighborhoods that work for everyone & should match <u>existing</u> residential landscape
 In the spirit of cooperation, granting <u>only one party everything</u> requested is not the spirit of cooperation.

POWERPOINT PRESENTED BY VIRGIL VANDUSEN TO PLANNING COMMISSION IN THEIR MEETING OF APRIL 27, 2017. PAGE 33 OF 34

In Summary, Our Requests Include the Following:

1. Larger lots with fewer dwelling units (to better match the surrounding home landscape)

2. 10' foot brick and/or stone fence facing Aspen and Jasper

3. <u>No</u> commercial zoning be approved

4. Timeline and plan (in writing) from city as to when Aspen will be widened <u>before</u> construction can begin on proposed development.

5. Contract from Capital Homes to City of Broken Arrow and homeowners within 300ft of proposed development to explain how, what, and when. That way the promises made today are held accountable for the future.
