

Sec. 5-13. - Construction and maintenance requirements for stables or buildings used for keeping livestock or animals raised for fur-bearing purposes.

(a)

Every stable or building wherein any horse, mule, donkey, pony, cow, goat, sheep or animal raised for fur-bearing purposes is kept within the city shall be constructed of such material and in such manner that it can be kept clean and sanitary at all times.

(b)

Every stable or building referred to in subsection (a), if located within 200 feet of any tenement or apartment house, hotel, restaurant, boarding house, retail food store, building used for educational, religious or hospital purposes, or residence other than that occupied by the owner or occupant of the premises upon which such animal is kept, shall be provided with a watertight and flytight receptacle for manure, of such size as to hold all accumulations of manure. Such receptacle shall be emptied sufficiently often and in such manner as to prevent it from being or becoming a nuisance, and shall be kept covered at all times except when open during the deposit or removal of manure or refuse. No manure shall be allowed to accumulate on such premises except in such receptacle.

(Code 1970, § 3-7; Code 1977, § 5-13)

Sec. 5-14. - Disposition of manure.

Manure shall be hauled outside the city in a manner which does not jeopardize the public health, or shall be spread evenly upon the ground and turned under at once or as soon as the weather permits.
