**Consideration, discussion, and possible award of the lowest responsible bid to Crossland Heavy Contractors, Inc., and approval of and authorization to execute a construction contract for Lynn Lane Wastewater Treatment Plant Headworks Improvements (Project No. 165420 and 165423)**

Director of Engineering and Construction Alex Mills reported the Digester Rehabilitation was underway, and the above project was the second and larger project being undertaken in an effort to update the Lynn Lane Wastewater Treatment Plant. He stated HDR Engineering was retained by BAMA to create the design including a new Headworks Facility. He stated the project was advertised for bids on August 2<sup>nd</sup> and August 9<sup>th</sup>, and opened on September 12<sup>th</sup>. He stated two bids were received, both compliant and responsive (bid tabulation attached). He reported the bids submitted were comprised of a base bid and an Additive Alternate for cleaning associated with the project. He noted Crossland Heavy Contractors had the low bid with a base bid of \$9,665,220.00 and an Additive Alternate A bid of \$117,000.00 for a total bid of \$9,772,220.00. He explained this was well below the engineer's estimate of \$11,624,060.00, and award was recommended for Crossland Heavy Contractors. He stated, with approval of the award, mobilization between now and the end of the year was anticipated with an estimated 18 months construction time. He asked if there were questions.

Trustee Mike Lester asked what the difference was between the bidders. Mr. Mills reported the higher bid was at budget at \$11,379,000.00. Trustee Johnnie Parks asked what bond was intended for funding of this project. Mr. Mills responded funding was via a loan from the Oklahoma Water Resource Board. Vice Chair Eudey asked if this would help address the current odor issues. Mr. Mills responded it should significantly reduce the odor problem. There were no other questions.

MOTION: A motion was made by Debra Wimpee, seconded by Johnnie Parks.
