

Scott Esmond
Director of Parks and Recreation Department
City of Broken Arrow
485 N Poplar Avenue
Broken Arrow, OK 74012

Dear Scott Esmond:

Group 4 of LBA class 2018 for its class project decided to provide Broken Arrow Seniors with a Master Plan concept drawings to improve its patio area. The master plan drawing has been completed by Architect 9 and Richard Brenner Architects. It is the intention of our group to complete a portion of the improvements of this master plan. This project will take 3-5 years to complete. Phase I of this project will be completed by the end of 2018. The scope of work of Phase I includes but not limited to: Concrete patio extension, games (Cornhole and horseshoes) and some new plants. The remainder of work that doesn't get complete by our class this year will be continued by other LBA classes and other volunteer work days, example: day of caring. Example of Phase II could include the awning, raised beds and other plantings. All work is limited to volunteers and donations but any work that is started would be completed. Please let us know if we can answer any further questions.

Sincerely,

LBA Class of 2018
