6. General Authority Business

A. 18 987 **Award the lowest responsible bid to Walters Morgan Construction, Inc. and approve and authorize execution of a construction contract for the Verdigris River Water Treatment Plant Pretreatment Basin Expansion (Project No. 175436)**

Engineering and Construction Director Alex Mills reported the water quality of the Verdigris River Water could be challenging during the warm weather months and had caused problems with water quality and turbidity. He stated the purpose of this project was to make improvements which would address the above problems and hopefully maximize the capacity of the Water Treatment Plant. He stated the project included the construction of two rapid mix basins, two flocculation train basins with plate settlers, residual collection and pumping systems, and modifications to the chemical feed, storage and pumping systems. He reported the project was advertised for bid on July 23rd, 2018, bids were opened on August 14th, 2018, four bids were received, and all bids were responsive; a copy of the bid tabulation and a letter of recommendation from the design firm were included with this item. He reported the low bid was \$6,833,000 dollars from Walters Morgan versus an estimate of \$8,231,000 dollars from the design firm. He stated the budgeted loan amount for this project was \$8 million dollars from OWRB (Oklahoma Water Resources Board); therefore, he was pleased to be able to award the project to Walters Morgan Construction, if the Broken Arrow Municipal Authority so approved.

Chairman Thurmond asked if the taste issues recently experienced would be fixed with this project. Mr. Mills responded in the negative. He stated, unfortunately, this would not help with the algae byproduct which was occasionally problematic, but it would help with water clarity.

MOTION: A motion was made by Johnnie Parks, seconded by Debra Wimpee.
