DEVELOPMENT CONCEPT

Vandever Acres Center - Planned Unit Development No 17 was approved by the City of Broken Arrow Planning Commission and City Council in 1980. The subject property served the community as a Safeway grocery store until 2002. Then the building was converted and operated as a Hobby Lobby and Craft Store until 2017.

Now a local church community would like to utilize a portion of the building to serve as their meeting and worship facility. At the same time, a portion of the existing building will be converted to retail space to serve mid-size stores. These proposed retail spaces will be designed to face the east, South Elm Place. Amendment PUD-17A seeks to add permitted use of Assembly, to allow the church use within Lot 2, Block 1 of Vandever Acres Center as part of the first phase of the project.

In addition, the proposed PUD amendment allows for the new development of an outparcel fronting West New Orleans. The development could be a quick service restaurant or other retail business.

The original commercial center was developed prior to the existence minimum landscape requirements. In addition, additional right-of-way dedications and easements are required along both arterial streets. The proposed development includes significantly more landscape than previously required. However, in order to maintain current parking lot traffic patterns and flow throughout the entire development, this PUD amendment addresses the lack of landscape edge required by current landscape code requirements.

The proposed development works to allow a local church to move into the area and still maintain and expand the commercial retail space to also serve the city as well.

PUD DETAIL PLANS REVIEW

Prior to construction of any new building structure within the Vandever Acres Center, a PUD Detail Site Plan shall be submitted to and approved by the City of Broken Arrow. Prior to the issuance of a certificate of occupancy for any new buildings within Vandever Acres Center, a PUD Detail Landscape Plan shall be submitted to and approved by the city. Additionally, prior to the issuance of such certificate of occupancy, written certification must be submitted to the city from an architect, landscape architect, or engineer authorized to do business in the State of Oklahoma, or the owner of the property, stating that landscaping has been installed, except trees, in accordance with the approved landscaping plan. Prior to or within one hundred twenty (120) days following the issuance of a certificate of occupancy permit, written certification must be submitted to the city from an architect, landscape architect, or engineer authorized to do business in the State of Oklahoma, or the owner of the property, stating that all trees have been installed, in accordance with the approved landscaping plan.

ANTICIPATED DEVELOPMENT SCHEDULE

It is the intent of the owner / developer to commence initial site grading activity following zoning and preliminary plat approvals and acquisition of an Earthchange Permit. Following receipt of other required project plan and permit approvals by the city, it is anticipated that construction will commence in winter of 2018 to the spring of 2019.
