

## GBB – Broken Arrow Waste and Recycle Study

n=152, MoE  $\pm 7.56\%$

Fielding from February 11<sup>th</sup> – 20<sup>th</sup>, 2019

# Methodology

For the study, we collected a total of one hundred fifty two (152) responses. Ninety four (94) of these responses were collected by live callers via phone. Fifty eight (58) responses were collected online.

All responses for this study were collected from residents in select neighborhoods in Broken Arrow who have been taking part in the recycling pilot program.

For the phone portion of this research, SoonerPoll's own interviewers, who are predominantly female ages 30 to 60, conducted the survey from Oklahoma City with an interviewer to supervisor ratio of 4 to 1. A one hour training session was conducted prior to fielding the survey and recognized research standards were followed in order to minimize all types of research bias and errors.

Data collection was conducted from February 11<sup>th</sup> – 20<sup>th</sup> for and was conducted by SoonerPoll on behalf of GBB and Broken Arrow.

*The above methodology meets the disclosure standard as prescribed by the Marketing Research Association (MRA).*
