Subject: Early Pour 3/22/19

Hi Michael,

I know the city has a noise ordinance before 7:00 am. Our first slab pour is scheduled for next Friday, 3/22/19. To allow the slab to cure and be finished that day we will need to begin our pour at 3:00 am with the first hour being just setup. The noise will be mostly the hum of large trucks and beeping when they backup, and we will have lights set up pointing at the slab. The early start will allow the majority of the concrete trucks to be off the roads by 8:00 am, which will help with morning traffic.

Please let me know if it is an issue to get a variance on the noise ordinance for 3/22/19.

Thanks,

Bridget Goodacre
