Commissioner Ricky Jones stated his firm participated in the TIF project with the developer on this property and as such he recused himself for this Item. Commissioner Ricky Jones left the Commission chambers and returned following Consideration of Item 8A.

Mr. Nate Ellis with the Public Finance Law Group stated his address was 5657 NW Classen, Oklahoma City. He reported the Public Finance Law Group was retained by Broken Arrow to assist in creating a TIF District. He stated the TIF District Review Committee met at length two nights ago and recommended the City adopt the TIF District Project Plan. He noted the Creek 51 Business Park was proposed to be an industrial park area, and the TIF would enable the City to capture the incremental ad valorem tax revenue generated by the

development. He stated the property currently was generated approximately \$191 dollars in ad valorem taxes annually; however, with the proposed development the new ad valorem taxes were projected to total approximately \$8.6 million dollars over the next eleven years. He reported the TIF District Project Plan proposed a 50% of the incremental ad valorem tax revenue captured would be allocated to the developer as an incentive, with a cap of \$5 million dollars. He explained the balance of the incremental ad valorem tax revenue captured would be allocated to the various taxing jurisdictions minus \$355,000 dollars in capital improvement recuperation costs for the City of Broken Arrow at a rate of \$60,000 dollars annually. He noted the \$355,000 dollars would cover traffic signalization and other necessary capital improvements. He explained \$355,000 dollars was most likely the maximum amount which would be spent on capital improvements; it was possible this number would be less. He reported there was a Public Meeting scheduled regarding the TIF District during the City Council Meeting on August 6, 2019. He noted the Planning Commission was required to determine if the TIF District was consistent with the long term plans of the City.
