Rocky,

Regarding bid 19.107 Articulating Aerial Device and Truck with Utility Body, I'm going to reach out to Chuck Roberts at Rush Truck and see if they will give us a credit of \$3,945.00 difference between low bid and theirs. If they are not willing to give us a credit would you consider going to council and rejecting this bid and re-bidding?

I'm also going to look at some other Cities and see about putting something in our boiler plate to address delivery time issues.

Thank you for your time

Subject: RE: Bucket Truck

We are at their mercy. Rejecting the bid would require us to invest approximately \$18,000 to repair an existing bucket truck which is not worth the investment. I would tell them that crediting us the difference is practicing good business, otherwise we will not use them in the future. Is losing the City's business worth \$4,000?

Pat & Rocky,

My apologies for this taking so long to get worked out. We have finally worked out a deal with the body company for the extended delivery time that we are experiencing on the awarded bid # 19.107 bucket truck. We will be able to discount the awarded price by \$2,500.00. I know that it is not full difference from the Altec bid that was requested below but this is the best discount that we can apply to this awarded bid. I want you to know that we value the relationship we have with the City of Broken Arrow and we will continue to push and see if we can move the delivery time up even slightly. Please feel free to reach out to me with any additional questions or needs. Thank you!

Chuck Roberts

Chuck,

Regarding PO 103208 Bucket Truck. The Director of Streets and Stormwater asked me to reach out to you.

Attached is the fact sheet and bid tab for the Bucket truck and the fact sheet states: Staff recommends awarding the bid to the second lowest bidder, Rush Truck Center, due to a much shorter delivery time.

Bid shows Alitec with a price of \$142,339.00 a difference of \$3,945.00 from your price And since we are not going to get it within the time frame on your proposal sheet wanted to see if Rush Truck could give us a credit of \$-3,945.00 off of the Purchase Order.

Thank you,

Patrick Harrison, CPP | Purchasing Manager

Hi Pat,

I was waiting on Dur-A-Lift to get back with me so I could reply to Chuck. They emailed me this morning. Below is what they sent me. It was the 9th but was pushed back a few days due to some delays. Once it is complete at Dur-A-Lift it will need to go back to Claremore for installation of the grill guard, some lighting and a few other items. I am waiting on Claremore to let me know how long they will have it but I would anticipate a couple of weeks. I will follow up with Claremore on Monday as well as Dur-A-Lift and let you know. Have a great weekend.

Jose,

I have copied Pat Harrison on this email. He is our contact for Broken Arrow and was reaching out to me directly for an update on this unit. I did the best I could in explaining the situation but wanted to put you in contact with him for an accurate update as I do not want to misspeak or mislead the customer.

Can you please assist?

Thanks so much for your hard work and partnership.

Respectfully,

Bill Pruemer

Pat & Mike,

I apologize for the delay in getting back with you on a status update on the bucket truck. I am still trying to get an update from Dura-Lift. I will let you know as soon as I have more information. Again, my apologies for the delay. Thank you!

Everyone,
We still have some repairs to be made on this body. We have a replacement door on order and We are hoping that we will be able to get this unit wrapped up by 9/27/19. I will let you guys know if I hear of any changes?

The utility body was tipped over on its side and we had damage to the floor and some doors. We are hoping to have this wrapped up on or around 9/27/19.
