I. NARRATIVE

“Johanna Woods” (PUD 30) was approved by the Broken Arrow City Council on October 4, 1982. “Johanna Woods” is a ±75.14 acre residential mobile home development, generally located on the south side of East Omaha Street (East 51st Street South), between South 23rd Street (South 193rd East Avenue) and South 37th Street (South 209th East Avenue). The property was platted March 27, 1984 as “Johanna Woods” (Plat Cabinet 3-252 A&B) and replatted on February 3, 1987 as “Johanna Woods Amended” (Plat Cabinet 3-273 A&B).

This Major Amendment to PUD 30 is to request that two residential mobile home lots be split out of Reserve ‘B’, per the plat for Johanna Woods Amended. Item #2 from the City Council of Broken Arrow PUD 30 and BAZ #858 approval letter states: “2. Lots 1 & 2, 14 & 15, Blk. 7 to be left open and developed as common recreation area or clubhouse. (Lot numbers refer to old plat)”. The two lots proposed to be split from Reserve ‘B’ would correspond to Lots 1 and 2, Blk. 7 of the old plat referred to in the City Council approval letter. Johanna Woods has a significant amount of open space on site and the reduction of this open space by the two proposed residential lots would be negligible. A clubhouse/office with an outdoor activity space is currently located in Reserve ‘B’, directly across Reserve ‘B’ from the proposed lots.

In addition, it is requested that outdoor storage be an allowed use in Reserve ‘B’. There is currently an area in Reserve ‘B’ that serves this purpose and is screened by a 6 ft. wood screening fence. The proposed lot split would reduce the existing outdoor storage area, as the two lots would occupy a portion of this area.

To summarize, this Major Amendment to PUD 30 is submitted to request two revisions to PUD 30. The requested modifications are as follows:

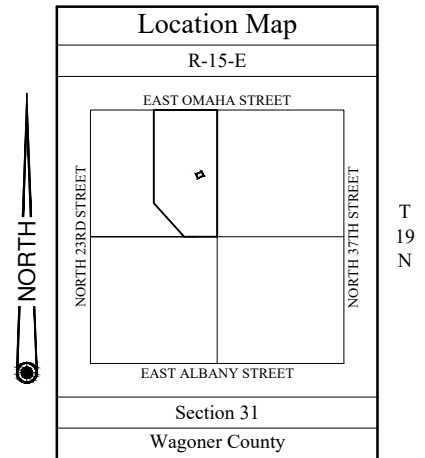

- 1). Allow for two lots to be split from Reserve ‘B’ as shown in Exhibit ‘A’. Lots would be developed per the approved PUD 30 Development Standards.**
- 2). Add outdoor storage as an allowed use for Reserve ‘B’. Outdoor storage area shown in Exhibit ‘A’ to be screened by a 6 ft. opaque fence.**

All other development standards of PUD 30 are to remain unaltered.
