From: Utilities Department
Title: Acknowledgement of submittal of the Broken Arrow Municipal Authority's Water Supply Report for the month of March 2017

Background:

In an effort to provide the Authority and the Public more information with respect to our community's water usage, the Utilities Department Staff has prepared a Total Water Supply Report that records total daily water usage, as well as monthly water volume delivered to the community.

Over the course of the third month of the year, the Maximum Water Plant Production Day was 11.8 million gallons per day (MGD) recorded on March 2 and March 21, 2017. The Average Day usage through the end of March is 9.6 MGD. Total water treated at the plant up to the end of March is 300.2 million gallons (MG). Total water purchased from Tulsa for the month of March is 3.8 MG.

This report will be updated on a monthly basis. Staff recommends the Authority acknowledge submittal of the Report.
