Broken Arrow City Council
Meeting of: 01-02-2018

To: Mayor and City Council

From: Fire Department

Title:

Consideration, discussion, and possible approval of and authorization to purchase one (1) full sized sport utility vehicle (SUV) for the Fire Department pursuant to the Oklahoma Statewide Contract SW35

Background:

The Fire Department recently researched Full Sized Sport Utility Vehicles (SUV's) for Fire Department staff personnel. The vendors deemed acceptable are identified on the attached bid tabulations from the Oklahoma State Contract SW35 (item# 1000009398). The Fire Department has identified the Chevrolet Tahoe as the preferred vehicle for purchase. Pursuant to the State Contract, Vance Chevrolet can provide the Chevrolet Tahoe with the identified options at \$31,877.00. Other SUV's are available for purchase, including the Dodge Durango and the Ford Expedition.

Although the Chevrolet Tahoe is not the lowest priced vehicle, the Fire Department has determined that the Tahoe is most advantageous due to the identified options and the need for a dual battery. In the past, the City has purchased full-sized Ford Expeditions which are not capable of having dual batteries. The dual battery system in the Tahoe comes standard. It is preferable to better handle the electrical load on vehicles with radios, computers and other electronic devices. Also, the Tahoe comes from the factory with pre-run wiring for emergency equipment as well as wiring run to the front of the vehicle for grill lights and siren speakers. This factory installed wiring will save fleet mechanic time and funding to install the emergency equipment.

Funds have been appropriated and are available in the Fire Sales Tax Fund in the amount of \$45,000.00 for the purchase of this vehicle.

The Fire Department recommends that the Council approve the purchase of the Chevrolet Tahoe from Vance

Chevrolet.

Cost: \$31,877.00
