The conditional final plat of Rose District Row Homes, which contains 7 lots on 0.56 acres, is located on the northeast corner of N. Cedar Avenue and W. Elgin Street. The property has been previously platted as Lots 13 - 19, Block 12 of the Original Town of Broken Arrow. PUD (Planned Unit Development) 263 and BAZ (Rezoning) 1980, a request to change the underlying zoning from R-3 to DF, was approved by the City Council on June 5, 2017, subject to the property being replatted.

Seven lots are proposed with Rose District Row Homes. While some of the units will be attached, each of the units is intended to be single-family, owner occupied units. According to PUD-263, the minimum lot size is 2,300 square feet, and the units have to cover at least 65 percent of the lot. The five units proposed along Elgin Street will setback four feet from the front property line. However, between the property line and the four foot building line setback, a porch is allowed to be constructed. Access to all seven units will be via a private drive in the center of the property. A property owner's association will be created that will maintain common use elements such as open space and mutual access easement private drives.

According to FEMA maps, none of the property is located within a 100-year floodplain. However, a creek does adjoin the property to the north and east. There is a significant topographical change from Elgin Street down to the creek. Water and sanitary sewer service to the addition will be provided by the City of Broken Arrow.
