Broken Arrow City Council Meeting of: 01-07-2020

Title:

Approval of and authorization to execute Agreement for Professional Consultant Services with CP&Y, Inc. for providing design services on the Houston Street Widening from Olive Avenue to Aspen Avenue project (Project Number ST2037)

Background:

The Houston Street Widening from Olive Avenue to Aspen Avenue project is a named 2018 General Obligation Bond project, which was scheduled to begin design work but required an A/E firm selection. With this in mind, the Engineering & Construction Department selected the A/E firm CP&Y, Inc. from the list of ranked and qualified firms which submitted statements of qualifications for the 2018 General Obligation Bond Proposition 1, Transportation Projects, to negotiate a design agreement.

The design agreement the Engineering & Construction Department negotiated with CP&Y, Inc. for this project includes improvements and widening of Houston Street from the eastern radii of the Houston Street and Olive Avenue intersection and will extend through and include improvements to the Houston Street and Aspen Avenue intersection. The project shall include widening the existing three lane asphalt roadway to a five lane asphalt roadway with the addition of curb & gutter, a five foot sidewalk on the South side, a ten foot multi use trail on the North side, and an enclosed storm sewer system. Water and sewer line relocations/upgrades, as required, shall also be included in the project as well as improvements to the existing bridge over Middle Branch Haikey Creek, and pedestrian signal work at the Houston Street and Aspen Avenue intersection. This project shall also include services for the following: identification of ultimate right-of-way needs, preparation of ultimate right-of-way acquisition documents, assistance during acquisition, any and all governmental agency coordination/permitting, and identification of and need for coordination of utility relocations.

Cost: \$289,759.00

Funding Source: 2018 General Obligation Bond

Requested By: Michael D. Kyser, Interim Director of Engineering and Construction
