**Acknowledgement of submittal of the Broken Arrow Municipal  
Authority's Water Supply Report for the month of February 2017**

**Background:**

In an effort to provide the Authority and the Public more information with respect to our community's water usage, the Utilities Department Staff has prepared a Total Water Supply Report that records total daily water usage, as well as monthly water volume delivered to the community.

Over the course of the second month of the year, the Maximum Water Plant Production Day was 11.4 million gallons per day (MGD) recorded on February 9, 2017. The Average Day usage through the end of February is 8.9 MGD. Total water treated at the plant up to the end of February is 248.8 million gallons (MG). Total water purchased from Tulsa is .4 MG.

This report will be updated on a monthly basis. Staff recommends the Authority acknowledge submittal of the Report.
