Background:

In an effort to provide the Authority and the Public more information with respect to our community's water usage, the Utilities Department staff has prepared a Total Water Supply Report that records total daily water usage, as well as monthly water volume delivered to the community.

The Average Day usage through the end of November is 8.9 MGD. Total water treated at the plant up to the end of November is 266.7 million gallons (MG). Total water purchased from Tulsa for the month of November is 0.0 MG.

This report will be updated on a monthly basis. Staff recommends the Authority acknowledge submittal of the Report.
